MUSTANG DARK HORSE R

Introducing the Mustang Dark Horse R, offering the most demanding track enthusiasts a turn-key race car ready to compete in the all-new Mustang Challenge spec racing series sanctioned by the International Motor Sports Association (IMSA).

Engineered for competition by Ford Performance and Multimatic Motorsports and powered by a new, fourth-generation 5.0-litre Coyote V8, the third Dark Horse-based racing derivative sets the foundation for Ford Performance sports car racing, where aspiring racers can hone their skills and develop their racecraft before stepping up to Mustang GT4 and Mustang GT3.
